Longview, TX

Dear Manager,

As I was shopping around your store I noticed that there was an opening. I have been thinking of getting a job for a while now, and I love to play sports and go hunting so I figured what better place to work than a sports and outdoors business.

I believe that, because I have played sports and been hunting I can relate to most customers that walk through the door. In addition, though I have not graduated high school I am a good student, and took Algebra as an eighth grader. My qualifications for working at the best sporting goods store around would be: I am good with numbers, reliable, and I have made the Scholastic roll in my Freshman year.

I would very much like to get an interview with you about the position to further prove how I would help your business. You can contact me at (903)-399-4193 the best time to contact me would be after 5:30 on weekdays or on weekends. Or to possibly make things easier for you I could call. Please let me know when is best for me to call.

Thanks, in advance, for your consideration, Manager

Sincerely,

Bryan Crossland
